R & R August 2021
WELCOME

Beautiful Mia Gloriana Alfonso was born on July 19th.

Congratulations to 2nd-year Resident Guillermo Alfonso and his family.
FAREWELL

Medical Imaging is sad to say goodbye to Dr. Hugh McGregor and Dr. Penelope Thomas this month.

We are grateful for their many contributions to the Interventional Radiology and the Neuroradiology Divisions.

Hugh McGregor, MD  Penelope Thomas, MD
CONGRATULATIONS

• DR. KUBAL HAS BEEN AWARDED EMERITUS STATUS
• HE CONTINUES TO PROVIDE SERVICE TO THE NEURORADIOLOGY DIVISION
• DR. KUBAL WISHES TO THANK THE TRAINEES, FACULTY AND ADMINISTRATION FOR HIS SERVICE AWARD (PICTURED, LEFT)
CONGRATULATIONS

Sarah Desoky, MD

Kudos for the completion of a new and successful Society for Pediatric Radiology course.

Dr. Desoky serves as the SPR Thoracic Imaging Course Director.

SPR Thoracic Imaging Course
AUGUST 18-20, 2021 | LIVE ONLINE
#SPRThoracic2021
CONGRATULATIONS

Second-year Resident, Mark Greenhill, was selected for the Introduction to Academic Radiology (ITAR) Program.

ITAR takes place during the RSNA 2021 annual meeting in Chicago.

Mark Greenhill, DO
CONGRATULATIONS

- Jane Pruitt, Business Analyst II, celebrates 5 years with Medical Imaging and Banner Health.
- Thanks for all you do for the team!
What is your position? I am a Radiology Technologist (and primary OR tech)

Where do you work? I work at B-UMCS and have been here for 9 1/2 years. I am the primary OR tech for our campus.

What kind of education do you need for the position? I was part of the third graduating class from Pima Community College in 1975. My graduation was around the time when CT was first being used for medical purposes and was prior to the invention of MRI. I graduated with an Associates degree, and since then have done on-the-job training in the Cath Lab, interventional radiology, and Special Procedures.

What does a typical day consist of? There is a lot of variety in my day and it often includes going to the OR each morning to check for scheduled and pending surgeries. I verify the correct room and table are being used, and that the patient will be positioned correctly, ensuring the best C-Arm images are able to be obtained. When not working with the surgical team in the OR, I am taking care of inpatients and ED patients via portable exams or by bringing them into the department.

What do you love most about your job? I am a people person and love making people happy! I am passionate about taking care of our patients, staff and students. I believe that I can make a positive difference in every person I interact with and I work hard to treat the whole patient and never just the diagnosis or problem. I absolutely love the sense of comradery within our department; it feels like I am with family while working here at B-UMCS!
Gelareh Sadigh, MD delivered a highly informative Grand Rounds Presentation involving price transparency in medicine including the impact it has on healthcare.
Professor Emeritus, Lee F. Rogers, MD, provided another series of informative, insightful and impressive* Musculoskeletal Imaging Resident lectures!

*Pictured during a recent lecture (above), Dr. Rogers discusses one of the many notable sports cases he has been involved with.
CAPITAL INVENTORY AUDIT

Congratulations on the successful completion of the 2021 DMI Capital Inventory project which concluded with an audit.

Thanks to everyone who participated including a special thanks to Dr. Furenlid!

Tyson Steven Chadaz, MD
Associate Program Director, Radiology/Residency

Dorothy Gilbertson-Dahl, MD
Vice Chair of Education
Program Director, Diagnostic Radiology

Gregory J. Woodhead, MD, PhD
Interim Chair, Interventional Radiology
Program Director, IR Residencies

Christopher Miller, MD
Associate Program Director, Radiology Residency
Flying another mission for Pilots N Paws on August 12, Dr. Berndt Schmit flew to Shiprock, NM to rescue a Mother dog with three puppies, as well as 12 other puppies. After arriving at the Phoenix Deer Valley airport, they were greeted by four receiving rescue agencies.

Kudos, Dr. Schmit!
Thank you to Maria Telles, PhD, who is constantly getting summoned to rescue and release the baby lizards that make their way into the administrative offices space. The little guy above was set free by her on Thursday, Aug 19th!
